

Foundation Stage

Maths Trail - Information for Teachers

The maths trail aims to draw children's attention to nature and the key landmarks of the park around them as well as help them to practise their numbers from 1 to 20 as they count what they can see.

Early Learning goals promoted:

Maths: Children count reliably with numbers from 1-20.

Literacy: Reading - Children read and understand simple sentences. They use phonic knowledge to decode familiar words and read them aloud accurately. They demonstrate understanding when talking with others about what they have read.

Communication and Language: Children follow instructions involving several ideas or actions.

Understanding the World: The World - Children talk about the features of their own immediate environment.

Resources needed:

- *Pencils*
- *Trail worksheet*
