

### Tree Teaser!

Can you guess what type of tree this is?

.....

**Find**

# Tree Tracker!

**Well done!**

**You have completed Mother Shipton's  
Tree Trail!**

# Tree Trail! KS2

Welcome to Mother Shipton's Cave!

By completing this Tree Trail you will learn about the various trees throughout the park and be able to spot them for yourselves!

Can you name the different trees by looking at their trunks? Look at the 'top tree telling tips' to help you!

Keep your eyes peeled!

# Search

1. As you walk past the first adventure playground can you spot any Horse chestnut trees on your left?

Horse chestnut trees

\*Horse chestnut trees are actually conker trees.  
Can you see any conkers?

2. Walk up the hill and just before the second adventure playground, look to your right and see if you can find a Cherry tree and then a Hornbeam tree a little further on.

Cherry tree

\*Cherry trees have dark brown trunks  
\* This Cherry tree is placed unevenly on the ground which might mean its seed was dropped by a bird... Don't miss it!

\*Hornbeam tree trunks are stripy like a zebra!

\*Hornbeam trees have very hard wood which was used for ships and other machinery before steel was used.

Hornbeam tree

3. As you walk up Beech Avenue, (on the way to the museum) can you spot any Beech trees?

\*Beech trees have light brown trunks and are smooth to touch... Have a feel!

Beech tree

Did you spot the roots of this tree as you walked through the park?

Why do trees have roots? .....

## Tasks!

1- Create a bark rubbing of a tree using crayons and a piece of paper- What do you notice about the bark rubbings of different trees?

2- Using measuring tape measure the width of the trunks of different trees. The thicker the trunk, the older the tree! Which of your trees is the oldest?!
